

Industry breakfast

Pathways to high performance in manufacturing

Date: Thursday 18 May, 2017

Venue: Amora Hotel Riverwalk, Richmond, VIC

The TTNA, in conjunction with Filtration & Separation Australasia and Composites Australia, are pleased to present this breakfast on **Pathways to High Performance in Manufacturing** with accomplished business transformation facilitator and coach, Hugh O'Donnell (pictured at right).

Hugh will outline some key observations on the impediments to opening pathways to high performance in manufacturing; successful change management strategies and improving work flow in production initiatives such as RIPA (Rapid Improvement Project Activity).

About our guest speaker

Hugh is co-founder of the High Performance Consortium (HPC), and a respected and accomplished business leader with an impressive business transformation record as a general manager, facilitator and business coach. Importantly, Hugh believes in Australian manufacturing and has dedicated his career to its sustainability. He works with large corporations and medium size businesses across a variety of sectors including manufacturing, construction and service.

Designed as a whole-of-business improvement model for high potential medium sized businesses, HPC brings business people together to share ideas, learn from and challenge each other to improve. Learn more on the [HPC website ...](#)
